

As a representative of the Ohio Council for Home Care, I would like to express my opposition to the new FCC rule regarding the elimination of the "established business relationship" qualification from fax regulations. As a small trade association every dollar counts. This regulation will impose significant administrative burdens on the Council by forcing us to obtain the written consent of our own member, clients, and industry partners before transmitting any fax that could be interpreted as commercial in nature. This is especially burdensome considering that there is much confusion as to exactly what transmissions the FCC would interpret as commercial in nature and whether a written consent form would expire with membership.

Kathleen Anderson, CAE  
Executive Director  
Ohio Council for Home Care
